CAN IT REPLACE COMPETITIVE PRODUCTS?

It is unique in that it can reduce SKU's by replacing multiple competitive products.

Is It Economical?

Active Force MP-ECO® is up to 30% lower in cost than the market leader's products, and can save as much as 40% vs. the other competitors. Peter Greven® is the low cost producer of high quality products, plus we offer very effective dispensing systems.

The combination of low price and dispenser efficiency results in savings of 50% and more. For example, our 2,000ml bottle gives 1,000 hand washings. Some of the leading competitors only give 666 hand washings. This factor alone brings substantial savings. Now, our 4 liter bottle gives 2,000 hand washings to save you even more.

Many competitive products require more than one washing to remove all soil and dirt. MP-ECO works the first time and saves even more by eliminating the need for multiple washings. Often, MP-ECO will outlast competitive products by as much as 2-to-1!

IS IT HIGH QUALITY?

This product is our highest quality hand cleaner and outperforms competitive products in every case. Active Force MP-ECO is unsurpassed in quality and performance!
